Analytica Chimica Acta 375 (1998) 307–309

ANALYTICA CHIMICA ACTA

Author Index

Abollino, O.
—, Aceto, M., Bruzzoniti, M.C., Mentasti, E. and Sarzanini, C. Determination of metals in highly saline matrices by solid-phase extraction and slurry-sampling inductively coupled plasma-atomic emission spectrometry 293
Abollino, O.
—, Aceto, M., Bruzzoniti, M.C., Mentasti, E. and Sarzanini, C. Speciation of copper and manganese in milk by solid-phase extraction/inductively coupled plasma-atomic emission spectrometry 299
Aceto, M., see Abollino, O. 293
Aceto, M., see Abollino, O. 299
Al-Tamrah, S.A.
Flow injection spectrophotometric determination of tenoxicam 277
Almeida, L.E.
—, Castilho, M., Mazo, L.H. and Tabak, M.
Voltammetric and spectroscopic studies of the oxidation of the anti-oxidant drug dipyridamole in acetonitrile and ethanol 223
Ayora-Cañada, M.J.
—, Pascual-Reguera, M.I. and Molina-Díaz, A.
Continuous flow-through solid phase spectrophotometric determination of trace amounts of zinc 71

Baird, J., see Savage, A.L. 1
Ballesteros, E., see Rodríguez, J. 99
Borg, N.
— and Ståhle, L.
Recovery as a function of the osmolality of the perfusion medium in microdialysis experiments 135
Bridges, J., see Thorburn Burns, D. 255
Bruzzoniti, M.C., see Abollino, O. 293, 299

Carda-Broch, S.
—, Esteve-Romero, J.S. and García-Alvarez-Coque, M.C.
Chromatographic determination of diuretics in urine samples using hybrid micellar mobile phases with fluorimetric detection 143
Casabó, J., see Flor, T. 127
Castilho, M., see Almeida, L.E. 223
Charles, Y., see Motellier, S. 243
Chen, G.N.
—, Lin, R.E., Zhuang, H.S., Zhao, Z.F., Xu, X.Q. and Zhang, F. Study of electrogenerated chemiluminescence of *N*-(β-carboxyl-propionyl)luminol 269
Chen, H.-Y., see Feng, Y.-L. 167

Danielson, N.D., see Fujima, J.M. 233
Demuth, C., see Zhang, W. 211
Dong Liu, X., see Zhi Huang, C. 89

Esteve-Romero, J.S., see Carda-Broch, S. 143
Eun, H.
— and Umezawa, Y.
Sulfate ion sensing based on a quartz-crystal microbalance immobilized with barium sulfate crystals grown on a self-assembled monolayer of phosphorylated 11-mercapto-1-undecanol 155

Fago, G., see Laganà, A. 107
Fakler, A., see Zhang, W. 211
Fang Li, Y., see Zhi Huang, C. 89
Feng, M., see Wang, W. 261
Feng, Y.-L.
—, Chen, H.-Y., Tian, L.-C. and Narasaki, H.
Off-line separation and determination of inorganic arsenic species in natural water by high resolution inductively coupled plasma mass spectrometry with hydride generation combined with reaction of arsenic(V) and L-cysteine 167
Fernandes, J.R., see Wang, J. 197
Flor, T.
—, Romero, I., Muñoz, M., ValienteMuñoz, M. and Casabó, J. Thermodynamic characterization of the liquid–liquid extraction of silver by acyclic dithia benzene derivatives 127
Fujima, J.M.
— and Danielson, N.D.
Determination of creatine kinase activity and phosphocreatine in off-line and on-line modes with capillary electrophoresis 233

Gallego, M., see Rodríguez, J. 99
García-Alvarez-Coque, M.C., see Carda-Broch, S. 143

Haddad, P.R., see Paull, B. 117
Hayano, K., see Shibutani, Y. 81
He, Q., see Wang, W. 261

Huang, J., see Zhu, Q.-Z. 177

Jiang, M., see Wang, J. 197
Juris, A., see Taddia, M. 285

Kiba, N.
—, Tachibana, M., Tani, K. and Miwa, T.
Chemiluminometric branched chain amino acids determination with immobilized enzymes by flow-injection analysis 65

Laganà, A.
—, Fago, G., Marino, A. and Mosso, M.
Soil column extraction followed by liquid chromatography and electrospray ionization mass spectrometry for the efficient determination of aryloxyphenoxypropionic herbicides in soil samples at ng g^{-1} levels 107
Langford, M.L., see Munro, W.A. 49
Lewis, R.J., see Thorburn Burns, D. 255
Li, D.-H., see Zhu, Q.-Z. 177
Liao, Y., see Wang, W. 261
Lin, R.E., see Chen, G.N. 269
Liu, F., see Zhu, Q.-Z. 177
Lopez Paz, J.L., see Wang, J. 197
Lucano, C., see Taddia, M. 285

Maher, W.
— and Woo, L.
Procedures for the storage and digestion of natural waters for the determination of filterable reactive phosphorus, total filterable phosphorus and total phosphorus 5
Marino, A., see Laganà, A. 107
Martin, J.R., see Polishchuk, V. 205
Massart, D.L., see Poppi, R.J. 187
Mazo, L.H., see Almeida, L.E. 223
Mentasti, E., see Abollino, O. 293, 299
Miwa, T., see Kiba, N. 65
Molina-Díaz, A., see Ayora-Cañada, M.J. 71
Mosso, M., see Laganà, A. 107
Motellier, S.
— and Charles, Y.
Characterization of acid–base and complexation properties of cellulose degradation products using capillary electrophoresis 243
Muñoz, M., see Flor, T. 127
Munro, W.A.
—, Paul Thomas, C.L. and Langford, M.L.
Characterisation of the ion mobility spectrometric behaviour of a dinitrobutane under varying conditions of temperature and concentration 49

Narasaki, H., see Feng, Y.-L. 167
Nesterenko, P., see Paull, B. 117

Pascual-Reguera, M.I., see Ayora-Cañada, M.J. 71
Paul Thomas, C.L., see Munro, W.A. 49
Paull, B.
—, Nesterenko, P. and Haddad, P.R.
Chelation ion chromatography of metal ions using an ODS reversed-phase column and a mobile phase containing methylthymol blue 117
Polishchuk, V.
—, Souteyrand, E., Martin, J.R., Strikha, V.I. and Skryshevsky, V.A.
A study of hydrogen detection with palladium modified porous silicon 205
Poppi, R.J.
— and Massart, D.L.
The optimal brain surgeon for pruning neural network architecture applied to multivariate calibration 187

Rivas, G., see Wang, J. 197
Rodríguez, J.
—, Ballesteros, E., Gallego, M. and Valcárcel, M.
Continuous-flow discrimination of L- and D-histidine 99
Romero, I., see Flor, T. 127

Sakamoto, H., see Shibutani, Y. 81
Sarijo, S.H., see Savage, A.L. 1
Sarzanini, C., see Abollino, O. 293, 299
Savage, A.L.
—, Sarijo, S.H. and Baird, J.
A novel screening method for tetracycline in milk combining sensitized-Eu(III) fluorescence and immunoaffinity techniques 1
Shibutani, Y.
—, Sakamoto, H., Hayano, K. and Shono, T.
Synthesis and cation-extraction study of chromogenic 14-crown-4 derivatives for spectrophotometric determination of lithium 81
Shono, T., see Shibutani, Y. 81
Skryshevsky, V.A., see Polishchuk, V. 205
Souteyrand, E., see Polishchuk, V. 205
Spichiger, U.E., see Zhang, W. 211
Ståhle, L., see Borg, N. 135
Strikha, V.I., see Polishchuk, V. 205
Su, W., see Zhu, Q.-Z. 177

Tabak, M., see Almeida, L.E. 223
Tachibana, M., see Kiba, N. 65
Taddia, M.
—, Lucano, C. and Juris, A.
Analytical characterization of supramolecular species – determination of ruthenium and osmium in dendrimers by electrothermal atomic absorption spectrometry 285
Tani, K., see Kiba, N. 65
Thorburn Burns, D.
—, Lewis, R.J. and Bridges, J.
Systematic approach to the identification of water-gel explosives 255
Tian, L.-C., see Feng, Y.-L. 167

Umezawa, Y., see Eun, H. 155

Valcárcel, M., see Rodríguez, J. 99
ValienteMuñoz, M., see Flor, T. 127

Wang, J.
—, Rivas, G., Fernandes, J.R., Lopez Paz, J.L., Jiang, M. and Waymire, R.
Indicator-free electrochemical DNA hybridization biosensor 197
Wang, J., see Wang, W. 261
Wang, W.
—, Liao, Y., He, Q., Wang, J., Feng, M. and Wu, G.
Spectrophotometry with liquid-core optical fibre in aqueous solution phase in the ultraviolet region 261
Waymire, R., see Wang, J. 197
Woo, L., see Maher, W. 5
Wu, G., see Wang, W. 261

Xu, J.-G., see Zhu, Q.-Z. 177
Xu, X.Q., see Chen, G.N. 269

Zhang, F., see Chen, G.N. 269
Zhang, W.
—, Fakler, A., Demuth, C. and Spichiger, U.E.
Comparison of different methods for determining the selectivity coefficient using a magnesium-selective electrode 211
Zhao, Z.F., see Chen, G.N. 269
Zhi Huang, C.
—, Fang Li, Y. and Dong Liu, X.
Determination of nucleic acids at nanogram levels with safranine T by a resonance light-scattering technique 89
Zhu, Q.-Z.
—, Liu, F., Li, D.-H., Xu, J.-G., Su, W. and Huang, J.
A novel polymer-mimetic enzyme immunoassay system based on thermal phase separating technique 177
Zhuang, H.S., see Chen, G.N. 269
